

Alba García Santana

[linkedIn](#) [email](#) [portfolio](#)

I'm Alba García Santana, a product and UX/UI designer based in the Canary Islands. I come from a graphic design and beauty/retail e-commerce background, and over the years I've evolved towards designing digital experiences for CRM and internal tools.

I enjoy turning complex ideas into clear interfaces, caring both about aesthetics and functionality, and working closely with stakeholders to deliver useful solutions.

- UX/UI
- Product Designer
- Figma
- Design System
- Tokens
- Component libraries
- Accesibility
- CRM
